Report Owner (payer):

Audit Content:

- (1) A SMETA audit was conducted which included some or all of Labour Standards, Health & Safety, Environment and Business Ethics. The SMETA Best Practice Version 6.1 (March 2019) was applied. The scope of workers included all types at the site e.g. direct employees, agency workers, workers employed by service providers and workers provided by other contractors. Any deviations from the SMETA Methodology are stated (with reasons for deviation) in the SMETA Declaration.
- (2) The audit scope was against the following reference documents
- 2-Pillar SMETA Audit
- ETI Base Code
- SMETA Additions
 - Universal rights covering UNGP
 - Management systems and code implementation,
 - Responsible Recruitment
 - Entitlement to Work & Immigration,
 - Sub-Contracting and Home working,

4-Pillar SMETA

- 2-Pillar requirements plus
- Additional Pillar assessment of Environment
- Additional Pillar assessment of Business Ethics
- The Customer's Supplier Code (Appendix 1)
- (3) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (4) Any Non-Compliance against customer code shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

SMETA Declaration

I declare that the audit underpinning the following report was conducted in accordance with SMETA Best Practice Guidance and SMETA Measurement Criteria.

- (1) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (2) Any Non-Compliance against customer code alone shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

Any exceptions to this must be recorded here (e.g. different sample size): None.

Auditor Team (s) (please list all including all interviewers): Lead auditor: Prasanna Kumar Sabato Team auditor: None Interviewers: Prasanna Kumar Sabato

Report writer: Prasanna Kumar Sabato Report reviewer: Alka Shukla -Report reviewer

Date of declaration: 24-01-2023

Note: The focus of this ethical audit is on the ETI Base Code and local law. The additional elements will not be audited in such depth or scope, but the audit process will still highlight any specific issues.

This report provides a summary of the findings and other applicable information found/gathered during the social audit conducted on the above date only and does not officially confirm or certify compliance with any legal regulations or industry standards. The social audit process requires that information be gathered and considered from records review, worker interviews, management interviews and visual observation. More information is gathered during the social audit process than is provided here. The audit process is a sampling exercise only and does not guarantee that the audited site prior, during or post–audit, are in full compliance with the Code being audited against. The provisions of this Code constitute minimum and not maximum standards and this Code should not be used to prevent companies from exceeding these standards. Companies applying this Code are expected to comply with national and other applicable laws and where the provisions of law and this Code address the same subject, to apply that provision which affords the greater protection. The ownership of this report remains with the party who has paid for the audit. Release permission must be provided by the owner prior to release to any third parties.

Audit Parameters

	Audit Parameters		
A: Time in and time out	Day 1 Time in: 10.00 am Day 1 Time out: 05.30 pm	Day 2 Time in: 10.00 am Day 2 Time out: 03.00 pm	Day 3 Time in: NA Day 3 Time out:NA
B: Number of auditor days used:	1.5 auditor days (One audit	or in 2 days)

D: If Worker Representatives were not present please explain reasons why (only complete if no worker reps present)	Worker representative	s were present during	audit process
E: If Union Representatives were not present please explain reasons why: (only complete if no union reps present)	No union formed in th	e facility, not legally re	equired

Guidance

The Corrective Action Plan Report summarises the site audit findings and a corrective, and preventative action plan that both the auditor and the site manager believe is reasonable to ensure conformity with the ETI Base Code, Local Laws and additional audited requirements. After the initial audit, the form is used to rerecord actions taken and to categorise the status of the non-compliances.

N.B. observations and good practice examples should be pointed out at the closing meeting as well as discussing non-compliances and corrective actions.

To ensure that good practice examples are highlighted to the supplier and to give a more 'balanced' audit a section to record these has been provided on the CAPR document (see following pages) which will remain with the supplier. They will be further confirmed on receipt of the audit report.

Root cause (see column 4)

Root cause refers to the specific procedure or lack of procedure which caused the issue to arise. Before a corrective action can sustainably rectify the situation, it is important to find out the real cause of the non-compliance and whether a system change is necessary to ensure the issue will not arise again in the future.

See SMETA BPG Chapter 7 'Audit Execution' for more explanation of "root cause".

Next Steps:

- 1. The site shall request, via Sedex, that the audit body upload the audit report, non-compliances, observations and good examples. If you have not already received instructions on how to do this then please visit the web site <u>www.sedexglobal.com</u>.
- 2. Sites shall action its non-compliances and document its progress via Sedex.
- 3. Once the site has effectively progressed through its actions then it shall request via Sedex that the audit body verify its actions. Please visit <u>www.sedexglobal.com</u> web site for information on how to do this.
- 4. The audit body shall verify corrective actions taken by the site by either a "Desk-Top" review process via Sedex or by Follow-up Audit (see point 5).
- 5. Some non-compliances that cannot be closed off by "Desk-Top" review may need to be closed off via a "1 Day Follow Up Audit" charged at normal fee rates. If this is the case, then the site will be notified after its submission of documentary evidence relating to that non-compliance. Any follow-up audit must take place within twelve months of the initial audit and the information from the initial audit must be available for sign off of corrective action.
- 6. For changes to wages and hours to be correctly verified it will normally require a follow up site visit. Auditors will generally require to see a minimum of two months wages and hours records, showing new rates in order to confirm changes (note some clients may ask for a longer period, if in doubt please check with the client).

Corrective Action Plan

			Corrective	e Action Plan – nor	n-compliand	ces			
Non- Compliance Number The reference number of the non-compliance from the Audit Report, for example, Discrimination No.7	New or Carried Over Is this a new non- compliance identified at the follow-up or one carried over (C) that is still outstanding	Details of Non- Compliance Details of Non-Compliance	Root cause (completed by the site)	Preventative and Corrective Actions Details of actions to be taken to clear non-compliance, and the system change to prevent re- occurrence (agreed between site and auditor)	Timescale (Immediate, 30, 60, 90, 180,365)	Verification Method Desktop / Follow-Up [D/F]	Agreed by Management and Name of Responsible Person: Note if management agree to the non- compliance, and document name of responsible person	Verification Evidence and Comments Details on corrective action evidence	Status Open/Closed or comment
Working Conditions are Safe and Hygienic: 1	Ν	Finding: It was noted that the doors in stitching section were found opening inwards. Local law: In accordance with West Bengal Factories Rules 1958, Rule 61 (10) (t) Exit doorways shall open outwards, that is away from the room but shall not obstruct the travel along any exit. No door, when opened, shall reduce the required width of stairway of landing to less than 90 centimetres sliding door with up-down movement shall not be installed for this purpose	Training Systems Costs lack of workers Other – please give details:	It is recommended to the factory to ensure the doors to be open out wards as required by law and inward opening doors to be avoided in production floors.	60 days	Desktop	Yes, Mr. Sujit Banerjee / MR		
Working Conditions are	Ν	Finding: It was noted printing chemicals	⊠ Training □ Systems	It is recommended to the factory to	30 days	Desktop	Yes, Mr. Sujit Banerjee / MR		

Safe and Hygienic: 2		including hazardous in nature were stored and used in printing section and no adequate labelling provided to the chemical containers. Local law: According to Section 41 B(1) of The Factories Act, 1948.	Costs lack of workers Other – please give details:	provide adequate labelling in local language to the stored and used chemicals.				
Working Conditions are Safe and Hygienic: 3	Ν	Finding: It was noted training on first aid procedures was not provided to the employees handling first aid boxes. Factory has provided one day awareness training to around 10 workers on 06- 01-2023. Local law: According to Section 45(3) of The Factories Act, 1948, Each first-aid box or cupboard shall be kept in charge of a separate responsible person (who holds a certificate in first-aid treatment recognised by the state government) and who shall always be readily available during the working hours of the factory.	☐ Training ⊠ Systems ☐ Costs ☐ lack of workers ☐ Other – please give details:	It is recommended to the facility to provide training on first aid procedures with valid certificates to the concern employees handling first aid boxes, from a recognised institution and maintain the records for verification.	60 days	Desktop	Yes, Mr. Sujit Banerjee / MR	
Wages and benefits: 1	Ν	Finding: It was noted that full and final records of left employees (around 10 to 12 employees left from Jan 2022 till date)	 Training Systems Costs lack of workers Other – please give details: 	It is recommended to the factory to maintain full and final settlement records of all the left employees and	30 days	Desktop	Yes, Mr. Sujit Banerjee / MR	

		were not available for verification. Local law: According to Section 13A (1) of The Payment of Wages Act, 1936.		ensure the settlement amount are paid as per law.				
Subcontracting: 1	Ν	Finding: It was noted that the factory does subcontracting of dyeing process from one outside supplier; however, no system developed to monitor sub-contractors' performance on social and ethical standards. (As per ET Base code 8A.2)	Systems Costs lack of workers Other – please	It is recommended to the factory to establish system to monitor sub- contractors' performance on social and ethical standards and maintain the records for verification.	30 days	Desktop	Yes, Mr. Sujit Banerjee / MR	
Business Ethical practices: 1	Ν	Finding: It was noted that the facility has drafted policy on anti-corruption and anti-bribery, however, has not provided training to the concern employees about the policy and procedures. (As per ET Base code 10C.7)	Systems Costs lack of workers Other – please	It is recommended to the facility to provide relevant training on anti- corruption and anti-bribery to the concern employees and maintain the records for verification.	30 days	Desktop	Yes, Mr. Sujit Banerjee / MR

observation from the Audit Report, for example, Discrimination No.7	identified at the follow-up or one carried over (C) that is still outstanding		
0A. Universal Rights covering UNGP	Ν	 Based on interaction with management and review of records, it was noted that facility does not have a policy, endorsed at the highest level, covering human rights impacts and issues. Hence it is not communicated to all appropriate parties, including its own suppliers. Based on interaction with management and review of records, it was noted that facility does not identify their stakeholders and salient issues. Based on interaction with management and review of records, it was noted that facility does not identify direct, indirect, and potential impacts on stakeholder's human rights. Hence no remedial action in place. 	It is recommended the facility to establish and document the written policy and procedures on Universal Rights covering UNGP

Guidance on Root Cause

Explanation of the Root Cause Column

If a non-compliance is to be rectified by a corrective action which will also prevent the noncompliance re-occurring, it is necessary to consider whether a system change is required.

Understanding the root cause of the non-compliance is essential if a site is to prevent the issue reoccurring.

The root cause refers to the specific activity/ procedure or lack of activity /procedure which caused the non-compliance to arise. Before a corrective action can rectify the situation, it is important to find out the real cause of the non-compliance and whether a system change is necessary to ensure the issue will not arise again in the future.

Since this is a new addition, it is not a mandatory requirement to complete this column at this time. We hope to encourage auditors and sites to think about Root Causes and where they are able to agree, this column may be used to describe their discussion.

Some examples of finding a "root cause"

Example 1

Where excessive hours have been noted the real reason for these needs to be understood, whether due to production planning, bottle necks in the operation, insufficient training of operators, delays in receiving trims, etc.

Example 2

A non-compliance may be found where workers are not using PPE that has been provided to them. This could be the result of insufficient training for workers to understand the need for its use; a lack of follow-up by supervisors aligned to a proper set of factory rules or the fact that workers feel their productivity (and thus potential earnings) is affected by use of items such as metal gloves.

Example 3

A site uses fines to control unacceptable behaviour of workers.

International standards (and often local laws) may require that workers should not be fined for disciplinary reasons.

It may be difficult to stop fines immediately as the site rules may have been in place for some time, but to prevent the non-compliance re- occurring it will be necessary to make a system change.

The symptom is fines, but the root cause is a management system which may break the law. To prevent the problem re-occurring it will be necessary to make a system change for example the site could consider a system which rewards for good behaviour

Only by understanding the underlying cause can effective corrective actions be taken to ensure continuous compliance.

The site is encouraged to complete this section so as to indicate their understanding of the issues raised and the actions to be taken.
