INNOVATION

R&D Advantages

- Hardware, Software, Design and Mechanical Engineering
- R&D Personnel: 45 in Taiwan, 40 in China

Latest Technology

- Experienced SMT & AI Facilities
- Acoustic-tuning Team for Optimized Sound Performance with Custom-made Drivers

Professionalism & Reliability

- Comprehensive Test Program and Equipment
- Comprehensive Compatibility Test Techniques

Vision & Originality

- SANGEAN Currently Owns Various Patents Globally

High Flexibility

- Customizable & Flexible
- Full Manufacturing Service
- Complete and All-around Manufacturing Technology

High Quality

- Controlled Manufacturing Process
- Sophisticated Equipment for Stability Examination

High Efficiency

- Precision Controlled Manufacturing
- Low Cost & Minimum Manufacturing Loss

CERTIFICATIONS

ISO 9002
